

IEU MEMBERSHIP FEES

PARENTAL LEAVE

When a financial member starts parental leave during the course of a school year, IEU membership becomes complimentary from the start of leave till 31 January provided that the member's fee contributions up to that point exceed \$80.00.

For this to be initiated, the member needs to phone the IEU office to advise a member of our membership/finance staff of the starting date of the parental leave and ending date if known.

Where a member is taking parental leave for the entire school year, the fee payable is the Parental Leave (Fee Category P) amount.

If a member will be returning to work during the course of the school year, s/he can arrange to pay a pro-rata amount of the Category P fee to cover the period of leave and then return to normal fee deductions upon returning to work. Again, phone the IEU office and speak to one of our membership/finance staff.

Sometimes, while a member is on parental leave, circumstances at the school can change, there may be problems returning part-time, or there may be some other problem.

By staying a financial member while on parental leave, you are able to get any help and assistance you may need.
