

Mildura Region Health and Safety Network Meeting

# Is Close Enough Good Enough?

You are invited to join with colleagues across the Mildura region as we discuss the challenges and OHS duties involved in making a workplace fair, safe and healthy.

Harassment, discrimination, bullying and violence in the workplace undermine what it means to work in a respectful workplace and increases the likelihood of workers sustaining psychological injury.

This seminar will explore these issues, but importantly addresses what can be done from a prevention point of view to minimise the risks of such hazards occurring at work.

- What kind of workplace culture do you want?
- What are the barriers preventing the attainment of that culture and how do we make the workplace fair, safe and healthy?
